Average Monthly Bill (\$)	\$128.07	\$136.62	\$145.17	\$124.76	\$134.76

Monthly Usage: 637 kWh

Rates are current as of January 1, 2019

*This comparison illustrates the estimated electricity costs for a typical Schedule D residential customer within the jurisdiction of the City of San Jacinto with an average monthly consumption of 637 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2016 to December 31, 2016 for all applicable SCE Schedule D (non-CARE) service accounts within the jurisdiction of the City of San Jacinto and SJP's published rates as of January 1, 2019.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Rates are current as of January 1, 2019

*This comparison illustrates the estimated electricity costs for a typical small commercial customer within the jurisdiction of the City of San Jacinto with an average monthly consumption of 1,008 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2016 to December 31, 2016 for all applicable SCE TOU-GS-1-B service accounts within the jurisdiction of the City of San Jacinto and SJP's published rates as of January 1, 2019.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Surcharges (\$/kWh)	NA	(\$0.00003)	(\$0.00006)	\$0.00539	\$0.00539
Total Costs (\$/kWh)	\$0.08071	\$0.10310	\$0.12548	\$0.07870	\$0.09370
Average Monthly Bill (\$)	\$92.41	\$118.05	\$143.67	\$90.11	\$107.29

Monthly Usage: 1,145 kWh

Rates are current as of January 1, 2019

*This comparison illustrates the estimated electricity costs for a typical street and outdoor lighting customer within SCE's service territory with an average monthly consumption of 1,145 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2016 to December 31, 2016 for all applicable AL-2 service accounts within SCE's service territory and SJP's published rates as of January 1, 2019.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
